TO what you like, offering a full consultation, accompanied with a step by step programme for you to follow whilst styling your hair at home – from how much and which shampoo to use to how often your hair needs re-conditioning including those days when you are not shampooing your hair. In fact a total home care programme – on leaving the salon you will receive a prescription to take home.

YOUR style will be what suits you, your hair, your lifestyle, and will compliment your total look – individually designed for you, emphasising your best features.

WHEN buying an outfit, if it does not look good, we don't buy it or we take it back. Unfortunately you cannot do this with a haircut. We recognise the importance of designing the right style for you.

PROBLEM CORNER

Q. My hair is so fine. What can I do to give it body and make it thicker?

A. You could use a daily body boost shampoo and conditioner. To keep the volume in the hair use a style boost.

Q. Can you help me to cope with dry frizzy hair?

A. In order to remedy dry hair, I would recommend a moisture shampoo and conditioner with a weekly treatment to combat the lack of moisture. A conditioning styling foam will help reduce the frizz.

Q. My young daughter always cries when I brush her hair. **HELP?**

A. I have had the same problem with my daughter, and the best advice I could give you is use an ISINIS BRUSH which is painless. Better still, bring her into the salon and let one of our Designers show you and your daughter how to combat this problem.
